3 STRATEGY, PLANNING AND REFORM (agenda item 3)

3.1 The Council noted the information set out in documents C 114/3, C 114/3/1, C 114/3/2, C 114/3/3, C 114/3/4 (submitted by the United Kingdom) and C 114/3/5 (submitted by Germany), as well as that provided orally by the Secretary-General, the Chairman of the Working Group on the Development of a new Strategic Framework and the Coordinator of the Correspondence Group related to the *Guidelines on the Application of the Strategic Plan and the High-level Action Plan of the Organization (GAP)*, reporting on strategy, planning and reform.

3.2 With regard to document C 114/3/1, the Council, in particular, welcomed the introduction of a multilingual public website and noted that, while temporary assistance support would be provided for its further development and continuity over the period 2015-2017, it would be necessary, in the next biennium, to consider regular budget staffing in order to sustain the effort over the long-term. The Council expressed its appreciation to the Secretary-General and his staff for the work done on review and reform.

3.3 With regard to document C 114/3/2, the Council noted the view that the Trends, Developments and Challenges (TDCs) were a necessary and fundamental step in a new strategic framework.

3.4 The Council endorsed the view of the working group that the collection of input to the TDCs from Member States as well as IGOs and NGOs in consultative status should be an inclusive and transparent process.

3.5 The Council also endorsed the view of the working group that a framework to structure the inputs to the TDCs should be utilized, taking into account existing information and, to that end, requested the Secretariat to finalize the guidance based on the outline in annex 1 to the document and to issue a circular letter requesting input to the TDCs, as well as through other relevant means, such as the IMO website.

3.6 The Council agreed that the filtering and selection of relevant issues were the sole responsibility of the Member States.

3.7 The Council further agreed to the development of a vision statement following on from the development of the TDCs.

3.8 The Council endorsed the view that the Strategic Directions should be limited to the primary areas of action for the six-year period, and not to recreate the entire mandate of IMO.

3.9 The Council further noted:

- (i) that work would still be undertaken outside the primary areas of action in the six-year period, i.e. strategic and routine; and
- (ii) that the purpose of the Performance Indicators (PIs) was to provide a closed-loop feedback mechanism to improve processes, efficiency and effectiveness of the work of the Organization, and that these should be monitored and measured throughout the six-year period.

3.10 The Council endorsed the working group's view that discipline in respect of the current procedures and guidelines was required.

3.11 The Council agreed that all Planned Outputs (POs) should be listed in one place, and that those identified as strategic should be clearly highlighted on that list.

3.12 The Council noted the view that the process for adopting the new strategic framework should be inclusive and that the preparatory drafts for consideration and further development by the Member States should be developed by the Secretariat and the external consultant.

3.13 The Council endorsed the working group's view that the new strategic framework should be finalized in time for it to be implemented for the 2018-2019 biennium.

3.14 The Council agreed to timeline B (paragraph 12 of document C 114/3/1 refers) with the working group being convened back-to-back with the spring session of the Council in 2016.

3.15 The Council requested the committees to give priority and allocate sufficient time to review the POs in line with the new strategic framework, taking into account the workload of the committees and, in particular, the Marine Environment Protection Committee (MEPC).

3.16 The Council agreed to reschedule FAL 41 to the spring of 2017 to allow it to report to C 118.

3.17 The Council endorsed the working group's view that future working groups on this matter should continue to remain open to all Member States, as well as IGOs and NGOs in consultative status.

3.18 The Council approved, in general, the report of the working group on the Development of a new Strategic Framework and expressed its appreciation to the working group and its Chairman for the work done.

3.19 In relation to the outstanding matters in document C 114/3/5 (Germany), paragraphs 4 and 5, the Council agreed to forward these to the working group for consideration.

3.20 With regard to the Ad Hoc Council Working Group on the Organization's Strategic Plan, the Council agreed there was no need for the group to hold a session in October 2015 and that the review of the Strategic Plan and High-level Action Plan for this biennium, as well as the drafts of the Organization's Strategic Plan and High-level Action Plan for the next biennium be forwarded by the Secretariat to C/ES.28.

3.21 With regard to document C 114/3/3 on transparency and accountability of the Organization, the Council noted:

- (i) the information on the publication, available on the IMO public website, of a summary of internal audit activities and reports for the reporting year ending 31 December 2014;
- (ii) the information on the roll-out of the personal financial disclosure programme for the year from 1 January to 31 December 2014; and
- (iii) the Secretary-General's intention to strengthen the existing policy for protection against retaliation for reporting misconduct and for cooperating with duly authorized audits or investigations, and the issuance of a Statement of Internal Control with IMO Financial Statements.

3.22 With regard to document C 114/3/4, containing the report of the Correspondence Group on the revision of the GAP, the Council noted the information contained in the report.

3.23 In particular, with regard to the proposed amendments to the guidelines contained in the annex to the document, the Council decided to change the title to read "Application of the Strategic Plan and the High-level Action Plan of the Organization" and that the word "Procedure" be replaced throughout the text by the word "Document".

3.24 The Council further endorsed:

- (i) strict discipline in the application of the document, the use of mandatory language and the revised name of the document; and

- (ii) the revised text, in particular:
- the group's view that paragraph 3.4 now provided the required flexibility for the Organization to act in exceptional circumstances, and that the word "objectives" in that paragraph be replaced by the word "purposes"; and
 - the inclusion of provisions that allowed the outcomes of FSA studies to be treated as potential equivalents to output proposals.

3.25 The Council requested the Secretariat, taking into account the suggested changes, to prepare a draft Assembly resolution containing the revised text.

3.26 With regard to developing appropriate text related to recommendation 13 of the Ad Hoc Steering Group on Reducing Administrative Requirements, the Council further requested the Secretariat to insert a footnote for its review, at C/ES.28, for subsequent consideration and adoption by A 29, taking into account that the Steering Group had already developed relevant text.

3.27 The Council expressed its appreciation to the correspondence group and its Coordinator, Mr. Stone of the United Kingdom, for the work done.
