

This form is to be used by a flight training organisation when a student is accepted for flight training where a theoretical examination is required. Send the form via e-mail to: luffart@transportstyrelsen.se .
For multiple student registrations, a single e-mail is to be sent in for every student.

A copy of a proof of identity should be provided in the case the student does not have a Swedish personal identity number and does not hold a Swedish flight crew licence.

Flight training organisation	Head of training/Chief theoretical knowledge instructor	
Licence that the theoretical examination concerns	Examination code (according to the table on the following page)	
Student's name	Student's personal identity number	
Student's postal address (incl. zip code and city)		
Student's e-mail address	<input type="checkbox"/> Invoice via e-mail (only for students with a non-Swedish postal address)	

Untrue affirmation

If you violate or attempt to violate the examination rules, this means that you may be found guilty of the offense of **untrue affirmation**. Violating the examination rules, or attempting to do so, is also considered cheating and may result in the Swedish Transport Agency failing your entire examination. In that case, you will also not be allowed to take any more exams in any of the EASA Member States for 12 months or more.

The Swedish Transport Agency's examination rules and information about permitted equipment are found here: [Theoretical examination - Transportstyrelsen](#)

Affirmation

- I affirm on my honour that I will only use permitted equipment during the examinations and that I will not mislead in any way during the examinations.
- I also affirm that I will not communicate with anyone other than the invigilator and that I will not document any of the content of the exams in any way during the examinations.

Fee

You have to pay an examination fee. The amount of the fee is stated in the Swedish Transport Agency's Regulations on Fees (TSFS 2024:78).

Approval

I approve that the Swedish Transport Agency registers me for the theoretical examinations using the information I have provided in this form. Once registered, I will receive an invoice for a fee covering one attempt per subject. If I need to retake any exams, I will be invoiced for those exams afterwards, when the entire examination has been completed. If I cancel the theoretical examinations, the Swedish Transport Agency will only refund fees for examination attempts that I have not utilized.

¹ The student has completed a theoretical examination which has included 090-Communications or 091-VFR Communications and and 092-IFR Communications, on the IR, CPL or ATPL-level.

² The student has completed a theoretical examination which has NOT included 090-Communications or 091-VFR Communications and 092-IFR Communications, on the IR, CPL or ATPL-level.

³ These examinations shall only be taken if the applicant has failed the theoretical knowledge assessment at two skill tests and has received additional theoretical training at an DTO/ATO or if the applicant for an IR does not fulfil the PIC time requirement.
