Mandatory delivery of waste

Ships shall deliver their waste to a port reception facility before leaving the port, in accordance with the Swedish Transport Agency's Regulations and General Advice (TSFS 2010:96) on prevention of pollution from ships.

A ship that does not hold an exemption from waste delivery may proceed to the next port of call without delivering the waste, if the information provided in accordance with Annexes 2 and 3 of the Directive (EU 2019/883) on port reception facilities for the delivery of waste from ships, shows that there is sufficient dedicated storage capacity for all waste that has been accumulated and will be accumulated during the intended voyage of the ship until the next port of call

Exemption

Ships engaged in scheduled traffic with frequent and regular port calls may be granted exemption from mandatory delivery of waste in Swedish ports and waste notification in MSW by the Swedish Transport Agency. Frequent and regular calls means that they occur to the same Swedish port within a fortnight. Such ships shall also have made a special agreement with a waste contractor or port on waste delivery. The ships shall also have enough capacity on board to store the waste generated until it can be delivered at a port reception facility. If any of the circumstances granting exemption are changed, the application must be renewed.

The exemption is bound to a specific ship and its circumstances

An exemption from waste delivery is bound to the ship that is specified in the application. The exemption is only valid as long as the circumstances that are specified in the application remain unchanged under the same circumstances that are specified in the application. If the ship changes its route or gets replaced by another ship, a new application for exemption from waste delivery is required.

Translation of attached documents

All documents attached to this application must be written in Swedish or in English. If the original document is in another language, a duly authorized translation must be submitted.

1. For processing the application, a fee is charged according to the Swedish Transport Agency's current price regulation. Provide the invoice information to the company making the payment.
2. State the scheduled port calls of the ship. Click the box on the right side matching the Swedish ports you application of exemption from waste delivery applies to. The Swedish Transport Agency can only grant exemptions from delivery of waste in Swedish ports. Note that both Swedish and foreign ports on the ships route should be specified in the table.
3. Specify the type(s) of waste concerned by the application and with which company or port an agreement on waste delivery has been made. Write a description of how the waste is stored.
4. As per Swedish regulation all ports, Swedish and foreign, along the ships route must be notified about the ships application for exemption from waste delivery before being granted an exemption.
5. To process the application, the following documents have to be attached:
 - 1) Proof of scheduled traffic shall include a timetable, or similar, and information regarding time of departure from, and arrival to, the ports. The ship shall visit the port concerned by the application at least once a fortnight.
 - 2) Copy of agreement(s) shall include information regarding which company the agreement of waste delivery has been made with, in which port the waste is delivered, and which types of waste are delivered.
 - 3) A copy/copies of waste delivery receipts from recent waste delivery/deliveries.
 - 4) Approval of waste delivery arrangement from the port where waste is delivered if the waste delivery agreements are with a contractor that is separate from the port where waste delivery takes place. The approval can for example consist of a document where the port attests that the arrangement is approved.
6. The application must be signed by the applicant who consequently declares that the information in the application is correct. The signed application form is scanned and e-mailed to the address listed above.
